

All4Labels Group

European General Data Protection Regulation (EU-GDPR = EU-DSGVO)

1 Goal of the Data Protection Guideline

The All4Labels Group is committed to comply with the data protection regulations within the structure of the European Data Protection Regulation (EU-DSGVO).

The Data Protection Officer of the All4Labels Group companies in Europe is implementing and supervises a data protection management which complies with all requirements of the EU-DSGVO and thereby promoting an optimal group-wide protection of confidentiality.

2 Scope of Application

The Data Protection Guideline applies to all processing of personal data and is applicable at all European sites of the organisation.

3 Principles

The All4Labels Group is aware of its responsibility regarding the compliance to data protection regulations and is stipulating the following principles regarding the processing of personal data:

- The All4Labels Group ensures the lawful protection of personal data in the frame of the EU-DSGVO.
- The All4Labels Group GmbH ensures a lawful contract data processing in line of the EU-DSGVO.
- The transparency of the contract data processing is ensured in line with data protection regulations.

- Personal data is solely recorded and processed in the frame appropriation, with data avoidance and data economy being key factors.

4 Information Rights of the parties concerned

The parties concerned have all information rights regarding their personal data within the frame of the data protection regulations.

5 Actions

The All4Labels Group ensures technical and organisational actions for the confidentiality, integrity and accessibility of personal data.

6 Contact Person for Data Protection

Contact Person for the European Data Protection is:
